***Fiber Composites Announces Agreement with Reid and Wright, Inc. for Ten State Distribution***

New London, NC – November 25, 2008 – Fiber Composites LLC, a leading manufacturer of composite decking, railing and fencing solutions, announces the partnership with Reid & Wright, Inc in Broomfield, CO to develop the Fiberon brand decking and railing presence in the Central Midwest states which include Northwest Arkansas, Colorado, Kansas, Missouri, Western Nebraska, Oklahoma, Western South Dakota, Wyoming, Northern and Central New Mexico, and panhandle of Texas.

“We believe our partnership with Reid and Wright will ensure the growth of Fiberon’s composite products as well as our innovative line of new Ultra Low Maintenance Composites and PVC decking and railing,” explained Doug Mancosh, President of Fiber Composites.

Founded in 1948, Reid and Wright, Inc. has earned a reputation as one of the most respected distributors in specialty building products. Chris Lynch, VP, COO and General Manager of the Broomfield Distribution Center, stated that “Fiberon products bring quality outdoor products that will add value for our business partners. As an independent, full service wholesale building products distributor, we are committed to servicing the retail and industrial trades, bringing them the best in innovative building products.”

Fiber Composites, LLC is a leading manufacturer of composite decking, railing and fencing used in homes and light commercial construction across North America. Its Fiberon brand product line is designed specifically for professional contractors. Fiber Composites’ polymer chemists and extrusion professionals employ the latest technology to constantly innovate, using the finest raw materials coupled with leading manufacturing processes to ensure best-in-class quality. Fiber Composites was founded in 1997 and is a privately owned company with operations in North Carolina and Idaho.
